## **KW** KEY WEST BOATS BEYOND UNSINKABLE!

**WHY BUY A BOAT THAT ISN'T  
BUILT UNSINKABLE?**

Key West boats have closed cell foam flotation exceeding USCG regulations; they are built with **LEVEL FLOTATION** - even when the boats are filled with water, they float level and right side up! Very few boats are built this way...**DON'T BUY A BOAT UNLESS YOU KNOW IT'S UNSINKABLE.**

WHY ENCORE BOATS?

Encore Boat Builders thrives on manufacturing a good quality boat at an affordable price. Several selections of floor plans and options are available, be it for cruising or for fishing. These floor plans are available in 14-foot, 16-foot, 20-foot, 22-foot, 24-foot and 25-foot pontoons and are offered in many different color variations. The company's goal is to produce quality boats at an affordable price with features and workmanship superior to other available models.

**INTRODUCING** the 24' 4" Key West with a full 9' beam! 21/24° stepped hull design, which provides the smoothest ride and most stable fishing boat in rough water.

## FROM THE DIRECTOR OF THE DIVISION OF FISH AND WILDLIFE

How does the Division of Fish and Wildlife's new guiding slogan *We Bring You Delaware's Great Outdoors through Science and Service* result in a successful and enjoyable fishing trip?

*We Bring You Delaware's Great Outdoors* involves your Division of Fish and Wildlife working for you to provide opportunities for successful fishing experiences in Delaware's scenic and varied fishing destinations. We manage and restore a variety of fish popula-

tions to provide you quality fishing opportunities. We help you access these fish resources by providing numerous quality boat ramps and shoreline fishing areas throughout the state.

*Science* defines and guides how we approach fish population man-

agement and restoration. Fisheries science is used to manage fish populations and size distributions at sustainable levels through fish size and possession limits and fishing seasons for the benefit of current and future anglers.

*Service* defines and guides our commitment to you as our angler customer. Our services include managing fish populations and providing fishing and boating access areas, aquatic education and fishing license sales. Fishing license sales generate the funds to help pay for these services that provide you a quality fishing experience in Delaware's great outdoors.

As an avid Delaware angler for many years, I hope to see you on the water. Wishing you "tight lines" this fishing season...

State and Federal law prohibit discrimination on the basis of race, color, national origin, age, sex, religion and/or disability. Complaints or inquiries should be directed to: Personnel Office, Department of Natural Resources and Environmental Control, 89 Kings Highway, Dover, DE 19901.

This summary is for the convenience of the sportsman and is not intended to cover all fishing laws and regulations. For specific provisions, reference should be made to Title 7, Delaware Code. When federal and state laws conflict, the law which is more restrictive governs.

FOR THE ACTUAL WORDING OF THE FISHERIES STATUTES AND REGULATIONS, AS WELL AS A WIDE VARIETY OF OTHER INFORMATION, VISIT THE DIVISION'S WEBSITE AT [www.fw.delaware.gov](http://www.fw.delaware.gov)

## About this Guide

This high-quality regulation guide is offered to you by the Delaware Department of Natural Resources and Environmental Control through its unique partnership with J.F. Griffin Publishing, LLC.

J.F. Griffin is an award winning publishing house that specializes in producing state fish & wildlife regulation books. J.F. Griffin supports DNREC's staff in the design, layout and editing of the guides. They also manage the marketing and sales of advertising to appropriate businesses within the book.

The revenue generated through ad sales significantly lowers production costs and generates savings. These savings translate into additional funds for other important fisheries programs.

If you have any feedback or are interested in advertising, please contact us at 413.884.1001 or online at [www.JFGriffin.com](http://www.JFGriffin.com)

# 2015 LICENSE FEES

## 2015 LICENSE FEES

LICENSE CATEGORY	RESIDENT	NON-RESIDENT
General Fishing License	\$8.50	\$20.00
7-day Tourist Fishing	NA	\$12.50
*Boat License 20 ft or less (optional)	\$40.00	\$40.00
*Boat License more than 20 ft (optional)	\$50.00	\$50.00
Head Boat License	\$300.00	\$600.00
Charter Boat License	\$150.00	\$300.00
Guide/Fishing	\$100.00	\$300.00

**\* Boat License** - The optional boat license for a recreational fisherman covers the holder of the license, and all occupants in the boat, as do the charter boat and head boat licenses. A resident who purchases a Delaware boat-fishing license also will be given a single Delaware fishing license for their own use on those occasions that he or she may not be on the boat. A Delaware FIN is required of all anglers age 16 years or older on the vessel.

**Non-resident** - Any non-resident who is 16 years of age or older except persons covered by one of the exemptions is required to have a license to fish, clam, or crab in the waters of the State of Delaware. Non-residents may purchase a 7-consecutive day tourist fishing license.

## BEFORE YOU FISH

### BEFORE YOU GO FISHING, CRABBING, OR CLAMMING IN DELAWARE YOU MUST:

- Purchase a 2015 Delaware fishing license and keep it with you while fishing (page 5).
- Get a free 2015 FIN number (automatically generated with the purchase of an individual license) and keep it with you while fishing (page 5).
- If fishing for freshwater trout get a 2015 trout stamp and affix it to your license (page 8).

### WHILE FISHING, CRABBING, OR CLAMMING IN DELAWARE, YOU MUST:

- Abide by size and possession limits.
- Be aware of area and seasonal closures.

### PLEASE BE AWARE THAT:

- Delaware does not have fishing license reciprocity with other states. You must have a Delaware fishing license to fish, crab or clam in Delaware.
- Delaware does not recognize Federal FIN numbers or FIN numbers from other states. You must have a free Delaware FIN (page 5).
- You must have a New Jersey FIN number if you fish in New Jersey waters of Delaware Bay.

## WHAT'S NEW FOR 2015

- It is now lawful to use electric lights in tidal waters to attract fish or to aid in bowfishing.
- Fish consumption advisories were recently updated for fish caught in three Delaware waterways: the Chesapeake & Delaware Canal (C&D Canal); the Red Lion Creek; and the St. Jones watershed. Overall, the changes in the advisories reflect long-term environmental improvements. See page 26.
- A new online shark identification guide is available to anglers at: <http://1.usa.gov/1BbJNgn>. Growing interest in shark fishing and conservation of shark species in recent years prompted the development of this easily-accessed and printable guide for use by anglers to aid in the identification of some of the most common sharks caught in the Delaware Bay and nearshore waters of the state. For more information on sharks, see pages 13 and 20.
- A shad and river herring identification guide is now available for anglers at: <http://de.gov/shadguide>. The handy guide was developed to help anglers distinguish between shad and river herring, which can be similar in appearance but must be treated differently by anglers who catch them, according to state fishing regulations. For additional information on shads and river herrings, see page 18.

## PUBLIC PONDS

A guide to public ponds, available online, is updated annually with the latest fisheries data. Each pond's information includes: fish populations, vegetation conditions, special regulations and facilities, and a contour map of the pond.

**This information is available at:**  
[www.fw.delaware.gov/fisheries/pages/DelawarePondBooklet.aspx](http://www.fw.delaware.gov/fisheries/pages/DelawarePondBooklet.aspx).

## 2015 FREE FISHING DAYS!

In celebration of National Fishing and Boating Week, June 6–14, the Division has designated June 6 and 7 as free fishing days when anyone may fish in Delaware's waters without a fishing license.

# FISHING LICENSE INFORMATION

## FISHING LICENSE REQUIREMENTS AND FIN NUMBER

A general fishing license is required for fishing, crabbing, or clamming in tidal and non-tidal waters throughout the State of Delaware (see Fishing License Exemptions page 6). A fishing license may be obtained at DNREC headquarters (89 Kings Highway, Dover), from over 85 licensing agents located throughout the state, or online by accessing [www.fw.delaware.gov](http://www.fw.delaware.gov) and following the licensing link. A fishing license is good through December 31 for the calendar year in which it was issued.

In addition to the general fishing license, all anglers (resident and non-resident) age 16 or older must obtain a free Delaware Fisherman Information Network (FIN) number each year before fishing in tidal or non-tidal waters of Delaware. This includes those anglers exempt from obtaining a general fishing license. See these exemptions on page 6. A FIN number is automatically generated and issued with the purchase of an INDIVIDUAL fishing license. Non-residents who do not have an individual fishing license AND those exempt from the license requirement must obtain a FIN number before fishing.

A FIN number can be obtained by automated telephone 1-800-432-9228 (toll free), or for live operator/customer service at 1-866-447-4626 (toll free) or by visiting the website at [www.delaware-fin.com](http://www.delaware-fin.com). The FIN number is mandatory and failure to provide a valid FIN number to an enforcement agent will be treated the same as a failure to have a valid fishing license. The number that you are

issued will be valid through December 31 for the calendar year in which it was issued. A FIN number is not needed if you only crab or clam.

The National Marine Fisheries Service (NMFS) will use the data obtained from the FIN program to identify anglers for survey purposes. The program allows for better estimates of recreational landings, an important component of fisheries management.

All funds derived from the issuance of fish-

ing licenses are dedicated to a special account for the purpose of matching and securing federal money allotted to Delaware under the provisions of the Federal Aid in Sportfish Restoration Act and cannot be diverted to other purposes. Together, these funds support projects having as their purpose the restoration, conservation, management and enhancement of sportfish, and the provision for public use and benefits from these resources (page 23).

## CATCH AND RELEASE

Many anglers practice catch and release fishing. This behavior, popularized by bass anglers, promotes the release of fish by anglers so the fish can be caught again. A long-term bass tagging study in Delaware has demonstrated many tagged fish are caught, released, and caught again — a few as many as four times. The Division strongly encourages catch and release fishing to maximize angling success — unless a fish population is known to be overcrowded.

## Meet the new RTV X-Series: Redefined. Rugged. Ready.

RTV-X1100C

Bring on the rain, snow, heat and wind. You'll stay comfortable in the RTV-X1100C's luxurious, fully-enclosed, factory-installed cab with air/heat/defrost and more. Powered by a rugged 24.8 HP Kubota diesel engine.

RTV-X900

New, truck-inspired styling. Improved suspension. Higher ground clearance. More legroom. Plus a rugged 21.8 HP Kubota diesel engine. America's top-selling diesel utility vehicle is now even better!

RTV-X1120D

Power through tough workloads. Glide over hilly, bumpy or rocky terrain. It's easy with a 24.8 HP Kubota diesel engine — plus the new Extra Duty Independent Rear Suspension (IRS) found on all RTV X-Series models.

# FISHING LICENSE INFORMATION

## FISHING LICENSE EXEMPTIONS AND EXCEPTIONS

Exempt anglers are required to get a FIN number (page 5), unless otherwise noted below.

The following are exemptions or exceptions to the license provisions:

- **Surf Fishing Permit** - Residents and non-residents are exempt from fishing license requirements if they are the operator of a vehicle with a valid Delaware surf fishing vehicle permit when that vehicle is located on a designated Delaware State Park beach. Other occupants of that vehicle are required to have a fishing license if they are fishing.
- **Seniors** - Residents of the State of Delaware age 65 years and older are exempt from fishing license requirements, but must have proof of age and residency.
- **Children** - Children under the age of 16 are exempt from the license and FIN requirement.
- **Other Exemptions** - Anyone qualifying for the following exemptions should contact the Division at (302) 739-9918.
  - » Any resident who owns or lives on a farm in this state containing 20 or more acres and the members of his or her immediate family who reside on the farm may fish on that farm without a license.

- » A member of the armed forces who is a patient in a military hospital and submits a written statement signed by the patient's commanding officer certifying the nature of the disability and place of station.
- » Persons who are patients in any Veterans Administration facility in this State, or in any public hospital or sanitarium for the treatment of tuberculosis, or a patient in a rehabilitation hospital under the State Department of Health, provided such person carries identification which verifies his or her status as such a patient, shall not be required to purchase a fishing license. Forms shall be supplied to such persons when they apply for their licenses to be used for the identification purposes.
- » Residents living in this State for at least 1 year immediately prior to the date of application for a license who have been honorably discharged from the armed forces of the United States and certified by the Veterans Administration as having at least a 60% service-connected disability.
- » Any Delaware resident that is a patient in a rehabilitation hospital under the Depart-

ment of Health and Social Services. Any Delaware resident who is legally blind.

- » Any person who fishes in a fee-fishing facility, registered as such with the Department of Agriculture.
- » Any resident who has served honorably for 90 or more consecutive days on active duty in the Armed Forces of the United States, including service as a member of the Delaware National Guard, in military actions in Southwest Asia associated with Operation Iraqi Freedom or Operation Enduring Freedom may, for the first 12 months following the date the resident was honorably discharged or removed from active status, be issued a license to fish in this State without charge.
- » Any member of the US armed forces, including any reserve component, serving on full time active duty in Delaware while not deployed or on temporary duty, and any member of Delaware's National Guard, shall be eligible for a resident fishing license. Qualifying persons should contact the Division at (302) 739-9918.

## DUPLICATE LICENSES

Duplicate licenses may be printed two times free of charge by visiting [www.fw.delaware.gov](http://www.fw.delaware.gov). Select Licenses, Permits and Registrations and the Lost Your Recreational License? For more information contact the Recreational Licensing Office at (302) 739-9918.

## 29TH ANNUAL YOUTH FISHING TOURNAMENT

As part of its activities for National Fishing and Boating Week, June 6-14, the Delaware Division of Fish and Wildlife will hold its 29th annual Youth Fishing Tournament from 10 a.m. - 1 p.m., Saturday June 6, 2015. The event will take place at Ingrams Pond in Millsboro, Wyoming Pond in Town Park, Wyoming, and at the Lums Pond State Park dog training area.

This fishing event is for youths ages 4 to 15. An adult must accompany youths under age 12 and contestants should bring their own fishing equipment. The tournament is free to the public and prizes will be awarded in three age groups: 4-7; 8-11; and 12-15.

The tournament was established to introduce youth to the sport of fishing and to teach the catch and release approach to conservation. There is no pre-registration nor entrance fee required and the tournament is held rain or shine.

In addition to the youth fishing tournament celebrating National Fishing and Boating Week, the Division has designated June 6 and 7, 2015 as free fishing days when anyone may fish in Delaware's waters without a fishing license.

### Delaware's Small Pond Program

The Division has nine small ponds scattered throughout the State which offer shore angling targeted at youth. The ponds range from 1/2 to 8 acres and contain good populations of largemouth bass and bluegill. Catch and release is the order of the day so barbless hooks are required at most. A brochure listing the pond locations and available facilities is available online ([www.fw.delaware.gov](http://www.fw.delaware.gov)), or by calling 302-735-8650.

# GENERAL NON-TIDAL FISHING REGULATIONS

These are some of the regulations and state statutes that all anglers should be familiar with. Most have been edited to make them easier to read and understand. **This is not a complete list and it is up to the angler to be familiar with all of the laws and regulations currently existing or newly adopted.** For a complete listing, refer to the Department of Natural Resources and Environmental Control, Division of Fish and Wildlife website or request a copy from the Director's office.

Unless otherwise authorized, it shall be illegal for any person to fish for any freshwater fish in the non-tidal waters of this State with any fishing equipment or by any method, unless it is provided for in the following subdivisions:

A hook and line may be used, with each line to have no more than 3 hooks or 3 separate lures with hooks.

Unless a person is fishing through the ice, the number of hooks and lines that any person is permitted to use to fish for any freshwater fish in the non-tidal waters of the State shall be no more than 2.

A person may use a dip net to aid in landing any freshwater finfish taken or caught by hook and line in the non-tidal or fresh waters of the State.

Carp and snakehead fish may be taken and/or fished for by using a bow and arrow and/or spear, unless said equipment or method is otherwise restricted by any Department regulation or local ordinance. At this time, no carp or snakehead fish may be taken from State Park ponds or Becks Pond using bow and arrow.

It is illegal to sell, trade, or barter any finfish taken from the non-tidal waters of this State, unless authorized to do so in a permit issued by the Director.

It is illegal to take shad, except by hook and line, and no more than two (2) lures attached. Each lure may have no more than one (1) single pointed hook.

It is illegal to knowingly snag fish in non-tidal waters with any hook (single, double or treble) or otherwise catch or attempt to snag or catch any game fish by hooking the fish in any part of the body other than in the mouth.

It shall be unlawful for any person to fish within ten (10) feet of an entrance or exit of a fish ladder or to remove fish from any fish ladder between March 15 and May 30.

## CLOSURE OF DEPARTMENT PONDS DURING DRAW-DOWNS

It shall be unlawful for any person to fish in any pond or lake administered by the Department when the water level is lowered for any purpose provided it is duly posted with signs by the Department that state it is closed to fishing.

## SPEED AND WAKE OF MOTORBOATS ON DIVISION PONDS

It shall be unlawful for any person to operate a motorized vessel, except at a **slow-no-wake speed**, on any pond or lake administered by the Division.

## CLEAN WATER

### How's My Waterway

How's My Waterway ([www.epa.gov/mywaterway](http://www.epa.gov/mywaterway)) helps users quickly find information on the condition of their local waters using a smart phone, tablet, or desktop computer. This tool provides results within seconds using EPA's water quality assessment data. Check out the condition of your local waterbody today!

16 and over	Yes	No	Yes	Yes
<b>FEE</b>	<b>\$20.00</b>		<b>\$6.20</b>	<b>NONE</b>

**It shall be unlawful for any person to transport, purchase, possess, or sell walking catfish (*Clarius batrachus*) or the white amur or grass carp (*Ctenopharyngodon idella*) or live northern snakehead fish (*Channa argus*) or blotched snakehead fish (*Channa maculata*) without the written permission of the Director.**

## TRASH-FREE

### Reminder: Keep Fishing and Boat Launching Areas Trash-Free!

The Delaware Division of Fish and Wildlife has a carry-in, carry-out policy for state wildlife areas, fishing piers and boat launching facilities. Trash cans are not provided, and visitors are expected to take their trash with them when they leave. To help ensure that these wild lands and public facilities are kept clean and trash-free, don't forget to pack a trash bag for your next fishing trip.

## FRESHWATER TROUT FISHING

Delaware's freshwater trout program is a self-supporting put-and-take fishery in selected New Castle County streams and Kent and Sussex County ponds. Revenue generated from the sales of trout stamps is used to purchase rainbow, brook and/or brown trout for stocking (see page 10). Summer water temperatures limit trout survival and reproduction in Delaware waters, so stocked fish are meant to be taken, but may be released at the angler's discretion.

**Season / Hours** - The 2015 freshwater trout season in Tidbury (Kent County) and Newton (Sussex County) Ponds opens at 7:00 a.m. on Saturday March 7, 2015.

The 2015 freshwater trout season in New Castle County opens at 7:30 a.m. on Saturday April 4, 2015.

**No fishing is allowed in designated trout streams or designated trout ponds (Tidbury & Newton Ponds) two weeks (14 days) prior to the scheduled opening of the trout season.**

It is unlawful to fish for trout in designated trout streams or designated trout ponds between one-half hour after sunset and one-half hour before sunrise.

**Trout Stamps** - A trout stamp is required to fish in a designated **trout stream** from the first Saturday in April through June 30 and from the first Saturday in October through November 30 unless exempted by law. A trout stamp is also required to fish **Tidbury Pond** in Kent County and **Newton Pond** in Sussex County from the first Saturday in March through April 1. Stamps are available online in electronic form, or a printed stamp may be obtained at DNREC Headquarters (89 Kings Hwy, Dover). All stamps must be signed across the face to legally trout fish. Purchasers of electronically issued stamps may obtain an original printed stamp by calling 302-739-9918. A stamp will be mailed to you after December 31, 2015.

## SPECIAL FLY FISHING ONLY SECTIONS (RESTRICTED TROUT STREAMS)

White Clay Creek from a point 25 yards above Thompson Bridge at Chambers Rock Road to the Pennsylvania state line is designated as a fly-fishing only trout stream (restricted trout waters).

It is unlawful to use any metallic, plastic or rubber spinners, spoons, lures, plugs or natural bait or to use more than two (2) flies on a line at any one time.

It is unlawful to possess more than four (4) trout within 50 feet of a fly fishing only section (restricted trout waters). Anglers may catch and release trout on these waters as long as the four (4) trout possession limit is not exceeded. All trout released must be returned to the water as quickly as possible with the least possible injury.

## COLLECTING STAMPS

If you are interested in collecting trout or duck stamps, please contact the Division 302-739-9918 or visit our website at [www.fw.delaware.gov/Fisheries/Pages/TroutStamp.aspx](http://www.fw.delaware.gov/Fisheries/Pages/TroutStamp.aspx)

## POSSESSION LIMITS OF TROUT

It shall be unlawful for any person to possess more than six (6) trout in any one day; except, it shall be unlawful to possess more than four (4) trout in or within 50 feet of any fly-fishing only waters (restricted trout streams).

# FRESHWATER TROUT FISHING

## 2015 TENTATIVE TROUT STOCKING SCHEDULE

WATER	PRIOR TO SEASON*	MARCH 19	APRIL 6	APRIL 9	APRIL 13	APRIL 16**	APRIL 23	APRIL 30**	MID OCTOBER
<b>STREAMS (SEASON OPENS 7:30 A.M., APRIL 4)</b>									
Beaver Run	🐟			🐟	🐟				
Christina Creek	🐟			🐟	🐟	🐟	🐟		
Mill Creek	🐟			🐟					
Pike Creek	🐟			🐟					
White Clay Creek	🐟		🐟	🐟	🐟	🐟	🐟	🐟	🐟
Wilson Run	🐟			🐟	🐟	🐟	🐟***		
<b>PONDS (SEASON OPENS 7 A.M., MARCH 7)</b>									
Newton Pond	🐟	🐟							
Tidbury Pond	🐟	🐟							

\* Prior to season: stocking includes trophy-sized rainbow trout (14 inches or greater) at all locations.  
 \*\* April 16 and April 30: Brown trout averaging 11 inches will be stocked at locations listed.  
 \*\*\* April 23: Stocking of 11 inch and trophy-sized rainbows to prepare for annual disabled anglers fishing derby on April 25, 2015 in Wilson Run at Brandywine State Park. For details on the fishing derby, please call the park office at 302-577-3534.

**It shall be unlawful for any person to stock any species of fish into the non-tidal public waters of this State without the written permission of the Director. This regulation does not prohibit the stocking of private impoundments.**

# BOATING SAFETY

## EDUCATION

Anyone born on or after Jan. 1, 1978 must successfully complete an approved boating safety course before operating a motorboat and/or Personal Watercraft (PWC) in Delaware. Approved courses are a State of Delaware sponsored course, a U.S. Coast Guard Auxiliary course, a U.S. Power Squadron course, Delaware Safety Council or any other state course which is approved by the National Association of State Boating Law Administrators and DNREC.

### Four Leading Causes of Boating Fatalities in Delaware Waters are:

1. Not wearing a PFD or wearing it unzipped
2. Collision (including PWC accidents)
3. Capsizing
4. Alcohol

## ALCOHOL

Just as drinking and driving don't mix, drinking and boating are a dangerous combination. Sun, glare from the water, constant boat motion and boat vibration all contribute to boater fatigue. Add alcohol consumption and those problems are compounded. Additionally, alcohol affects balance and muscle coordination, causes tunnel vision and slows reaction time. It also affects reasoning and increases the tendency to take risks.

Operating a boat under the influence of alcohol or drugs is against the law and could result in fines up to \$1,000 for first offense and/or up to 60 days in jail. A blood alcohol content of 0.08 or greater constitutes being under the influence.

## REGISTRATION, NUMBERING AND MARKING OF UNDOCUMENTED VESSELS

Vessels equipped with any type of motor must be registered in Delaware if principally used (a period of more than 60 days) in this State. The registration card or valid temporary registration card must be on board when the boat is in use. For further information on boating registration call: (302) 739-9916.

## PERSONAL FLOTATION DEVICES (PFDs)

In addition to the carriage requirements listed, a PFD must be worn by a child 12 years old or under while aboard a vessel which is underway and all PWC riders. Current regulations require all vessels to carry a wearable PFD for each person onboard and a throwable PFD for the boat, excluding boats less than 16'. The Boating Education Office suggests all vessels carry a throwable with a line attached for casting, and that you wear your life jacket zipped.

## NEGLIGENT OPERATION

Skippers on Delaware waters are legally responsible for damages to life, limb or property caused by his/her vessel. And, of course, negligent operation is illegal.

## SAFE BOATING SPEED

The speed of all vessels on Delaware waters must be slow enough to prevent any wake of appreciable height when the vessels are with-

in 100 feet of: "Slow-No-Wake" speed areas, docks, launching ramps, marked swimming areas, swimmers, anchored, moored, or drifting vessels.

Every year people are killed or seriously injured in boating accidents in Delaware's waters. All of these accidents were avoidable if the 'rules of the road' had been followed and safe boating practices had been adhered to. The Handbook of Delaware Boating Laws and Responsibilities is available at no cost by contacting the Enforcement Section of the Division of Fish and Wildlife (1-302-739-9915) or through our website [www.fw.delaware.gov](http://www.fw.delaware.gov).

The Enforcement Section of the Delaware Division of Fish and Wildlife is responsible for enforcing all of the safe boating laws as well as making sure that fish and shellfish size and creel limits are being followed. Some of the waters of the State are also patrolled by other authorities such as police officers and the U.S. Coast Guard. Boaters approached by a patrol boat with its blue light flashing should reduce speed, yield the right of way to the patrol boat, or if necessary stop your vessel. The operator must stop when requested to do so by a law enforcement officer.

The safety equipment and requirements for Delaware boaters vary depending on the type and length of the vessel. Here is an example of what is required of a typical fishing boat from 16 to 26 feet in length. For a complete list of all requirements for all size vessels contact the Enforcement Section.

- Boater Safety Education Card (for all operators born after January 1, 1978). For information contact 739-9915 or go to our website.
- Valid Boat Registration Card
- Valid Boat Registration decal (displayed)
- Personal Floatation Device(s) - one of the appropriate size for each person on-board
- Throwable PFD

- Type B-I Fire Extinguisher
- Flame Arrestor
- Ventilation System for fuel vapors
- Horn, Whistle, or Bell
- Visual Distress System (day and night)
- Navigational Lights

It is the responsibility of each vessel operator to observe the rules of the road and the carriage requirements. The Division recommends boaters wear their PFD at all times while on the boat. Six out of ten boating fatalities could be prevented by boaters wearing their life jackets. The consistent use of PFDs will save more lives.

# 2015 SEASONS, SIZE AND CREEL LIMITS

## DELAWARE'S RECREATIONAL SEASONS, SIZE AND CREEL LIMITS

All seasons & limits subject to change. Please stay current by consulting: [www.fw.delaware.gov](http://www.fw.delaware.gov) or (302) 739-9914.

NON-TIDAL WATERS				
SPECIES	OPEN SEASON	MINIMUM SIZE	DAILY LIMIT	
 <b>Largemouth bass</b>	All year	12 inches; except 15 inches in Becks Pond	6; except 2 from Becks Pond	
 <b>Smallmouth bass</b>	All year	None between 12 - 17 inches	6 (no more than 1 > 17 inches)	
 <b>Striped bass hybrid</b> (Only occur in Lums Pond)	All year	15 inches	2	
 <b>Panfish</b> (white perch, yellow perch, crappie, bluegill & pumpkinseed)	All year	None	50 (no more than 25 of one species)	
 <b>Trout</b> (special rules apply, pages 8 - 10)	Streams open 1st Sat. in April Ponds open 1st Sat. in March	None	6 (4 in fly-fishing only waters)	
TIDAL WATERS (Changes expected for species listed in RED)				
SPECIES	OPEN SEASON	MINIMUM SIZE	DAILY LIMIT	
 <b>American eel</b>	All year	6 inches	50	
 <b>American &amp; hickory shad</b>	Closed Nanticoke R. & its tribs.; Open all year elsewhere	None	10 in any combination	
 <b>Atlantic croaker</b>	All year	8 inches	None	
 <b>Atlantic sturgeon</b>	Endangered - no harvest permitted (see page 23)			
 <b>Black drum</b>	All year	16 inches	3	
 <b>Black sea bass</b>	May 19 - Sep. 18	12.5 inches (excluding caudal filament)	15	
	Oct. 18 - Dec. 31		15	
 <b>Bluefish</b>	All year	None	10	
 <b>Catfish</b> (any species)	All year	None	None	
 <b>Red drum</b>	All year	20 - 27 inches may be retained	5	
 <b>River herring</b> (alewife & blueback)	Closed - no harvest permitted			
 <b>Scup</b>	All year	8 inches	50	
 <b>Spanish mackerel</b>	All year	14 inches	15	
 <b>Spotted seatrout</b>	All year	12 inches	None	
 <b>Striped bass</b>	All year	28 inches, except only 20 - 26 inch fish may be retained from July 1 - Aug. 31 in DE River, DE Bay & their tribs (DE waters only).	2, except catch & release only on spawning grounds April 1 - May 31	
 <b>Summer flounder</b>	All year	16 inches	4	
	Jan. 1 - Mar. 31	15 inches	5	
	April 1 - May 11		3	
	July 17 - Aug. 31		5	
Sept. 29 - Dec. 31	5			
 <b>Tautog</b>				
 <b>Weakfish</b>	All year	13 inches	1	
 <b>White perch</b>	All year	8 inches	None	
 <b>Winter flounder</b>	Feb. 11 - Apr. 10	12 inches	2	

# 2015 SEASONS, SIZE AND CREEL LIMITS

SPECIES	OPEN SEASON	MINIMUM SIZE	DAILY LIMIT	
 <b>Blue crab</b> See page 21 for more details	Pots: Mar. 1 - Nov. 30; other gears year around	Peeler - 3 inches	1 bushel	
		Soft-shell - 3.5 inches		
		Hard-shell - 5 inches		
 <b>Hard clams</b>	All year	1.5 inches	100/resident 50/non-resident	
 <b>Lobster</b>	All year	3 3/8 - 5 1/4 inches (slot)	2; V-notched prohibited	
<b>Conch</b> See page 20 for details	Knobbed whelk	All year	6 inches / 3.5 inch whorl	5 bushels
	Channeled whelk	All year	6 inches / 3.125 inch whorl	5 bushels

**SHARKS AND HIGHLY MIGRATORY SPECIES (HMS) - SPECIAL PERMIT MAY BE REQUIRED FOR FEDERAL WATERS**

SPECIES	OPEN SEASON	MINIMUM SIZE	DAILY LIMIT
 <b>Smoothhound and spiny dogfish</b>	All year	None	None
 <b>Blacktip shark, bull shark, lemon shark, nurse shark, silky shark, spinner shark, tiger shark</b>	Jan. 1 -May 14 July 16 - Dec. 31	54 inches FORK LENGTH	Boat anglers- only 1 shark of any species per vessel, except 1 additional bonnethead and 1 additional Atlantic sharpnose per angler onboard vessel. Shore anglers - only 1 shark of any species per angler, except 1 additional bonnethead and one additional Atlantic sharpnose per shore angler.
 <b>Great hammerhead, scalloped hammerhead, smooth hammerhead</b>	Jan. 1 -May 14 July 16 - Dec. 31	78 inches FORK LENGTH	
 <b>Blue shark, oceanic white-tip shark, porbeagle, shortfin mako, thresher shark</b>	All year	54 inches FORK LENGTH	
 <b>Atlantic sharpnose shark, blacknose shark, bonnethead, finetooth shark</b>	All year	None	

**PROHIBITED SPECIES**

	<b>Sandbar shark, sand tiger, Atlantic angel shark, basking shark, bigeye sand tiger, bigeye sixgill shark, bigeye thresher, bignose shark, Caribbean reef shark, Caribbean sharpnose shark, dusky shark, Galapagos shark, longfin mako, narrowtooth shark, night shark, sevengill shark, sixgill shark, smalltail shark, whale shark, white shark</b>	The sandbar & sand tiger are toothed sharks commonly taken in the nearshore waters of the state and are prohibited species. Like all prohibited species, they must be immediately released to ensure the maximum probability of survival.
---	--	---

**SPECIAL RESTRICTIONS FOR SHARK**

- It is unlawful to fillet a shark prior to landing. A shark may be eviscerated prior to landing, but head, tail and fins must remain attached to the carcass.
- It is unlawful to release a shark in a manner that will not ensure the sharks maximum probability of survival (i.e. no gaffs, no clubbing, careful hook removal, etc.).
- It is unlawful to possess the fins from any shark prior to landing unless they are naturally attached to the body of the shark.

**TUNAS AND HMS - SPECIAL PERMIT REQUIRED**

	<b>Atlantic tunas, swordfish and billfish</b>	*Special permit required - All private vessel owners/operators recreationally fishing for and/or retaining regulated Atlantic Highly Migratory Species (Atlantic tunas, sharks, swordfish and billfish) for personal use in the Atlantic Ocean must obtain an Atlantic Highly Migratory Species (HMS) Angling Permit. Further limits and restrictions apply. Consult <a href="http://hmspermits.noaa.gov">hmspermits.noaa.gov</a> or call toll free (888) 872-8862 for specific information and permits.
---	---	--

## SURF FISHING

The Division of Parks and Recreation surf fishing beaches are located in Cape Henlopen State Park, Delaware Seashore State Park and Fenwick Island State Park, and on Beach Plum Island. Special restrictions and regulations apply to these areas. For more information contact the Division of Parks and Recreation, (302) 739-9220.

In order to drive a vehicle on a designated State Park beach, a SURF FISHING VEHICLE PERMIT is required. Only four-wheel drive vehicles with a minimum ground clearance of seven inches that are licensed to operate on public roadways are eligible for Surf Fishing Vehicle Permits. Permit holders must be actively engaged in surf fishing while on the beach. Permits are available at State Park offices, various license agents, and at the DNREC main office in Dover.

Purchasers of Surf Fishing Vehicle Permits will receive additional rules and safety requirements. The revenue collected from these permits supports the management of seashore State Parks and beaches. None of the proceeds from these permits go towards fisheries management programs or fishing access projects conducted by the Division of Fish and Wildlife.

Zach Pillarelli

Ben Smith landed the state record striped bass while surf fishing at Delaware Seashore State Park in 2012!

## NON-TIDAL FISHING ACCESS AREAS

"Area" number refers to the numbered yellow or brown boxes on the Fishing Area map (see map on page 17).

Access areas are closed from sunset to sunrise unless you are fishing.

**Note** - All motor boats launched from tidal access areas administered by the Division of Fish and Wildlife must be registered in Delaware or have a valid ramp certificate. Ramp certificates cost \$35 and are available from the Division of Fish and Wildlife or authorized agents (see page 25).

\* A daily or seasonal fee may be required at areas administered by the Division of Parks and Recreation.

## RECREATIONAL GILL NETS

Gear and seasonal restrictions apply to recreational gill nets and anyone obtaining a permit will be informed of these restrictions. During 2015, all recreational gill nets must be removed from the Delaware Bay and Ocean on the following dates: May 1–10; May 15–17; May 22–24; May 29–31; June 5–7; June 12–14; June 19–21; June 25–30 in order to reduce weakfish mortality rates as required by the Atlantic States Marine Fisheries Commission's Weakfish Management Plan. Each closure period begins at 12:01 a.m. on the first day and ends at midnight on the last day. No striped bass caught in recreational gill nets may be retained at any time.

## LINGO MARINE INC

ESTABLISHED 1961

Dale and Gerry Lingo started Lingo Marine in 1961. Today it is still operated by family. We have certified mechanics, and a full line of parts and accessories. We are large enough to serve you, but small enough to appreciate the opportunity!

- FIBERGLASS FISHING BOATS
- ALUMINUM FISHING BOATS
- PONTOON BOATS
- OUTBOARD ENGINES
- BOAT TRAILERS
- PARTS AND ACCESSORIES

Monday-Friday

8am-5pm

Saturdays

Summer - 8:30am-2pm

Winter - 9am-1pm

# INVASIVE SPECIES

## Northern Snakehead (Mature)

Northern snakehead are identified by a long dorsal (back) fin and anal fin, a rounded tail, and a large mouth reaching beyond the eye with many, sharp teeth. The young are generally lighter tan or yellowish in color.

## Northern Snakehead (Juvenile)

## Bowfin (Native)

Bowfin, a native species, is sometimes mistaken for snakeheads but has a short anal fin (arrow). Please return bowfin to the water.

## Flathead Catfish

Flathead catfish are most easily recognized by their broad, flat head, brown mottled coloration and lower jaw which sticks out further than the upper.

## Blue Catfish & Channel Catfish

The invasive blue catfish (on top), and a channel catfish (lower) can be differentiated by spreading out the anal fin and looking for a straight or lobed appearance.

**CLEAN** all visible aquatic plants from watercraft and trailers as well as waders and boots.

**DRAIN** equipment (boat bilge, ballast tanks, bait containers, motor) before leaving any water access area.

**DISPOSE** of unwanted live bait (minnows, worms) in the trash.

**REPORT:** In most cases, new fish species that are introduced into our waters don't survive or present a problem. But some may flourish and potentially cause ecological or economic harm. When there is harm, these species are called invasive. Currently, we have several species in our waters that we are tracking as potentially invasive and the department could use your help to document new sites. If you catch something you feel is unusual, **please call 302-739-9914**. If you catch a Northern snakehead, blue catfish or flathead catfish please do not return it to the water, but kill it and contact us. Document the catch by freezing it or taking a good photo.

## STOP AQUATIC HITCHHIKERS!

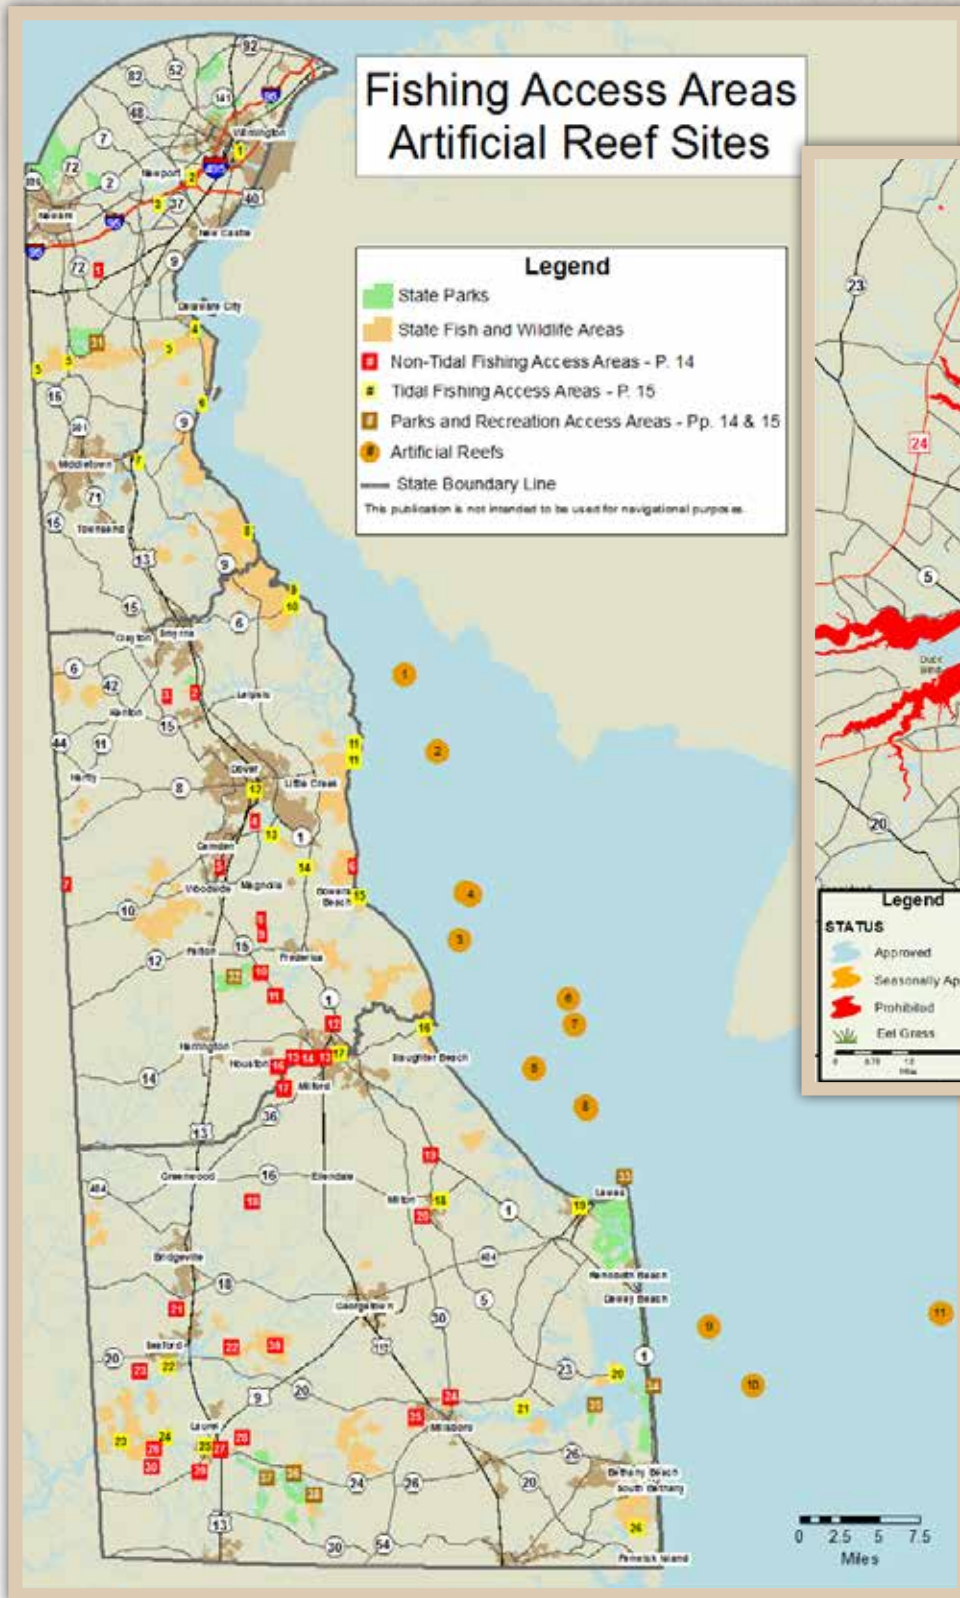

Prevent the transport of nuisance species.  
Clean all recreational equipment.  
[www.ProtectYourWaters.net](http://www.ProtectYourWaters.net)

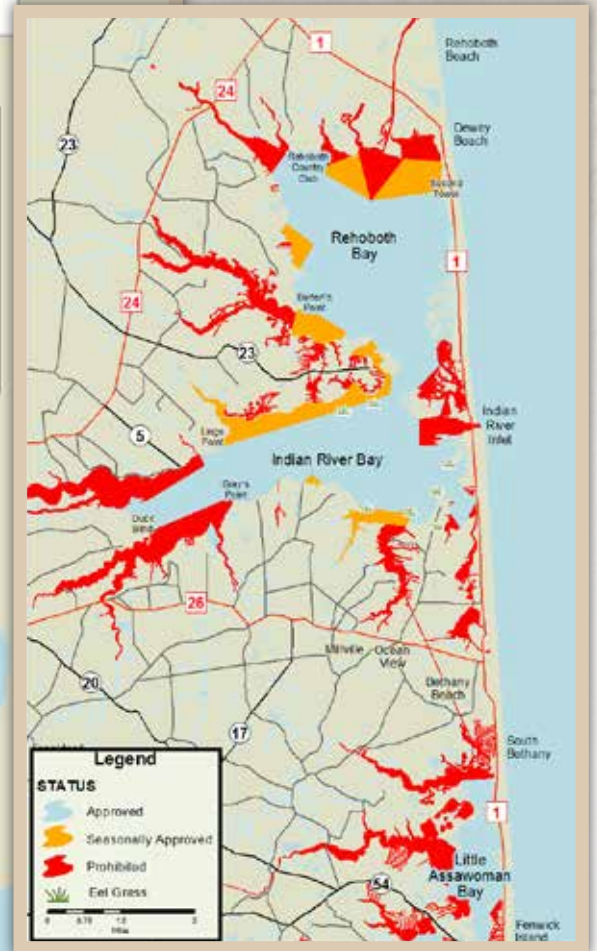

**Red Swamp Crayfish (*Procambarus Clarkii*)** are an invasive species. They have distinctive red bumps on the claws and often migrate over land during damp weather.

# FISHING & CLAMMING MAPS

## FISHING MAP

## CLAMMING MAP

Scan this QR code using your smart phone or tablet to get an expandable high resolution map of Delaware's shellfish closures or type [bit.ly/ZuilyY](http://bit.ly/ZuilyY) into your browser!

# GENERAL TIDAL FISHING REGULATIONS

These are some of the regulations that all anglers should be familiar with. For a complete listing refer to the Division's website or request a copy from the Director's Office. See page 5 for license requirements.

## STRIPED BASS SPAWNING SEASON

The spawning season for striped bass in Delaware is considered to begin at 12:01 a.m. on April 1 and continue through midnight on May 31 of each calendar year. It is unlawful for any person to take and retain any striped bass during the spawning season from the Nanticoke River or its tributaries, the Delaware River and its tributaries to the north of a line extending due east beginning at and including the south jetty at the mouth of the C & D Canal, or the C & D Canal or its tributaries. Catch and release only during this season; no harvest is allowed.

## CIRCLE-HOOKS

It is unlawful for any person to fish during the striped bass spawning season on any striped bass spawning ground with natural bait using any hook other than a non-offset circle-hook when said hook measures greater than 3/8 inches as measured from the point of the hook to the shank of the hook.

The Division recommends that circle-hooks always be used when fishing natural baits because of their proven ability to reduce hook and release mortality for striped bass and other fish species. The circle-hook's design usually results in fish being hooked in the mouth, simplifying hook removal and reducing injury to the released fish.

## NEW STRIPED BASS MEASURES

The Atlantic States Marine Fisheries Commission approved Addendum IV to Amendment 6 of the Atlantic Striped Bass Interstate Fisheries Management Plan on October 29, 2014. The approved Addendum requires all states in the management unit to reduce their commercial and recreational striped bass harvest by 25%. Delaware will achieve its recreational reduction through adjustments to the season, size and/or possession limits based on past fishery performance and public input. The

specific measures for Delaware's 2015 striped bass season were not available for inclusion in the printed version of the guide, but the online version is updated throughout the season with the latest species regulations. The 2015 regulatory changes will not impact the striped bass spawning season or circle hook provisions. Please consult [www.fw.delaware.gov](http://www.fw.delaware.gov) for the most up-to-date fishing recreational seasons, size and creel limits.

## AMERICAN SHAD AND HICKORY SHAD

It shall be unlawful for any person to have in possession more than an aggregate of ten (10) American shad and hickory shad. Additionally, it shall be unlawful for any person to take and reduce to possession any American shad or hickory shad from the Nanticoke River or its tributaries.

## RIVER HERRING

Both commercial and recreational river herring (blueback herring and alewife) fisheries are closed to harvest.

No person shall fish with any type of net, within 300 feet of any constructed dam or spillway on a tidal water river, stream, canal, ditch, or tributary located in this state.

**INDOOR DRY STACK MARINA**

## SUMMER FLOUNDER

It is unlawful for any person to have in possession any part of a summer flounder that measures less than the current minimum size limit between said part's two most distant points unless said person also has in possession the head, backbone, and tail intact from which said part was removed.

## ELECTRIC LIGHTS

Electric lights may now be used in tidal waters for recreational fishing. Electric lights are often used in bowfishing, which is an effective method for taking invasive fish such as the northern snakehead.

## COURTESY DOCKS

Crabbing, fishing or swimming from floating courtesy docks at any Delaware Division of Fish and Wildlife boat ramp is prohibited.

## ARTIFICIAL REEF PROGRAM

Delaware has eleven permitted artificial reef sites in Delaware Bay and along the Atlantic Coast. Development of these sites began in 1995 and will continue. The Delaware Reef Program is one part of a comprehensive fisheries management effort and is designed to enhance fisheries habitat, benefit structure-oriented fish, and provide fishing opportunities for anglers.

The site charts in the free reef guide show where reef materials have been deployed since 1995. The reef program uses DGPS (Differential Global Positioning System) to accurately place materials on site. Locations (latitude - longitude) noted for each site indicate the position of deployments of reef material from an anchored barge. In the case of large, concentrated reef deployments, a latitude or longitude range, may be given such as: N 39 15.377'-402'. This indicates material occurs between 39 degrees, 15.377 to 15.402 minutes north latitude. Due to variability between DGPS receivers, slight variations in readings may occur. It is suggested you use your GPS and a good fathometer to locate reef structure, then note the coordinates on your own GPS. You can view the reef guide on-line or contact the Fisheries Little Creek field office for a copy (302) 735-2960.

# SHARKS, CLAMS, CONCHS AND OYSTERS

Sharks are managed by the National Marine Fisheries Service (NMFS) and the Atlantic States Marine Fisheries Commission, and the regulations are complex. For more detailed information contact the NMFS or visit [www.nmfs.noaa.gov/sfa/hms/](http://www.nmfs.noaa.gov/sfa/hms/). State regulations are subject to any changes in federal regulations. Please consult [www.fw.delaware.gov](http://www.fw.delaware.gov) for the latest changes in state regulations. See page 13 for more information on shark seasons, sizes, and daily limits.

## COMMON DELAWARE SHARKS

The sand tiger, sandbar, smooth dogfish (or smoothhound) and spiny dogfish are the most commonly caught shark species in Delaware. Sandbar and sand tiger sharks are of special significance to the Delaware Estuary and its anglers. Delaware Bay is an important "pupping area" and nursery for sand tiger sharks, and they are commonly hooked. Due to their low reproductive rate and overfishing, both species are protected and **none may be retained**. No hook and line fisherman may remove from the water any sandbar shark, or any other prohibited species of shark. In addition, any sandbar shark or other prohibited species of shark must be immediately released in a manner that will ensure the maximum probability of survival.

For more information on other common Delaware sharks and handling, please visit [www.fw.delaware.gov](http://www.fw.delaware.gov).

**Smooth dogfish (Smoothhound)** - no recreational limit - to 5 feet in length; body gray to brown with yellowish to white underside; teeth are pavement like and noncutting; very common in warmer months (Apr. - Oct.).

**Spiny dogfish** - no recreational limit - to 5 feet in length; easily identified by thorny spine located on leading edge of dorsal fins; teeth small and not prominent; common in the cooler weather months (Oct. - Apr.).

**Sandbar - prohibited species** - to 7 feet in length; body bluish to brownish gray fading to white underside; front dorsal fin sits high and aligns with rear attachment point of pectoral fin (see red reference line); dorsal fins different size and shape; upper teeth triangular and serrated; lower teeth narrow and finely serrated.

**Sand Tiger - prohibited species** - to 10.5 feet in length; body gray-brown to tan with dark splotches; front dorsal fin well behind pectoral fin (see red reference line); dorsal fins nearly equal in size; prominent long curved teeth.

## CLAMMING

### METHODS OF TAKE AND LIMITS

**A fishing license is required to harvest clams in waters of the State of Delaware. See page 5 for details.**

It is unlawful for any person to attempt to take, catch, kill or reduce to possession any hard clams with a device other than a hand-held rake with a head no wider than fourteen (14) inches measured perpendicular to the tines and a straight handle not in excess of seven (7) feet in length.

It is unlawful to harvest hard clams from one-half hour after sunset through one-half hour before sunrise.

It is unlawful for any resident to harvest more than one hundred (100) clams per day unless otherwise permitted to do so by license or permit.

It is unlawful for any non-resident to harvest more than fifty (50) hard clams per day

unless otherwise permitted to do so by license or permit.

No shellfish harvesting (excluding crabs) is allowed in the **Prohibited Areas** marked on the map on page 17 or any tidal river, stream, or impoundment of the state. This includes all non-tidal and impounded water as well. Shellfish harvesting is allowed from December 1 through April 15 in the **Seasonally Approved Areas**. This is your protection against contracting shellfish-borne diseases. This is also the law. All boundaries may be marked with signs and or buoys saying "No Shellfish Harvesting" or "Prohibited Shellfish Area." Questions regarding these closures should be directed to the Watershed Assessment Section Shellfish and Recreational Waters Programs 302-739-9939. Clamming is prohibited in eel grass beds marked with white PVC pipes and signs.

## CONCHS

Conch (channeled and knobbed whelk) may only be taken using conch pots with at least one escape vent measuring at least 5 inches x 10 inches in the top or parlor section. The recreational harvest of conch by any other method is prohibited. Recreational conch potters may not use, place, set or tend more than two conch pots. The person claiming to own the pots must be the one to set and tend them. These pots must be marked with all white buoys with the owner's full name and permanent mailing address inscribed either on the buoy or on a waterproof tag attached to the buoy. All conch pots must be tended at least once every 72 hours. Conch must measure at least 6 inches along the axis or have a minimum diameter at the whorl of 3.5 (3 1/2) inches for knobbed whelk or 3.125 (3 1/8) inches for channeled whelk.

### MEASURING CONCH

#### WHORL DIAMETER

LENGTH

### Minimum Hard Clam Size

The minimum size for a hard clam is 1 1/2 inches from point A to point B.

1 1/2 INCHES

## OYSTERS

### RECREATIONAL HARVEST PROHIBITED

It is unlawful to recreationally harvest oysters in Delaware. This prohibition protects vulnerable oyster populations and protects you against contracting a shellfish-borne disease.

# BLUE CRABS

## BLUE CRABS

A fishing license is required to crab in all waters of the State of Delaware.

The blue crab is common in all the tidal waters of Delaware. It is a popular recreational resource and tops the list of the State's economically important marine fish and shellfish.

Blue crabs grow very quickly and reach maturity in 12 to 18 months. Most do not live beyond two years under current exploitation levels.

In order to grow, a blue crab must shed its shell and form a new shell. This process is repeated up to 18 times to attain maximum length. It is legal to take crabs at three stages, but to get the most yield in weight out of a crab, they should reach a minimum length before being harvested. This is measured from point to point of the top shell.

The minimum size for hard-shell blue crab is 5 inches, except mature females. Mature

females (sooks) are identified by the rounded apron on their under side. Once this stage of development is achieved, females stop growing. Therefore, female blue crabs with a U-shaped apron may be retained at any size. Females bearing eggs, commonly known as sponge crabs, may not be taken and should be returned to the water immediately.

Recreational crabbers may not use, place, set or tend more than two pots. The person claiming to own the pots must be the one to set and tend them. These pots must be marked with all white buoys with the owner's full name and permanent mailing address inscribed either on the buoy or on a waterproof tag attached to the buoy. All crab pots must be tended at least once every 72 hours. All crab pots must be removed from the water between December 1 and February 28. Recreational crabbers may use a trot line (no length limit) and any number

of hand lines or traps. The recreational daily limit is one bushel per person.

**A turtle by-catch reduction device is required to be attached in each funnel entrance of a recreational crab pot to reduce the possibility of diamondback terrapins entering and drowning. A by-catch reduction device is a rigid rectangular frame of plastic or metal that measures 1.75 inches x 4.75 inches and is available at local tackle shops, or can be hand-made from heavy (>11 gauge) wire or other suitable material.**

# SPORT FISHING TOURNAMENT

## TOURNAMENT RULES

1. The Sport Fishing Tournament is open to the public. There is no entry fee. Charter boat captains are eligible. Weighmasters are eligible to enter, provided their fish are weighed in at a weighing station other than their own.
2. All fish except those caught beyond the three-mile limit in the Atlantic Ocean entered in the Tournament must be caught within the boundaries of the State of Delaware. Any fish caught outside the three-mile territorial sea must be landed in a vessel leaving from a Delaware port and returning to a Delaware port.
3. All fish entered in the tournament must be weighed at an official Delaware Sport Fishing Tournament Weigh Station.
4. All fish entered in the tournament must be caught in a sporting manner with hook and line. No other person may touch the rod or line until the fish is brought within the grasp of the mate.
5. All scales used to weigh in fish must be certified yearly by the Delaware Division of Weights and Measures (Department of Agriculture 739-4811).
6. All fish entered in the tournament must meet the minimum weight requirement as set up for this year's tournament.
7. No smallmouth bass will be recognized from Kent or Sussex Counties unless Division of Fish and Wildlife qualified personnel examine and approve the catch.
8. **A fish will not be recognized as a state record unless qualified personnel from the Division of Fish and Wildlife approve the catch.** In case no Division personnel are available at the time of the weigh-in, the angler must save the entire fish for examination and approval at the earliest convenient time for the Division.
9. In the case of a tie for the largest fish of the year or a new state record, both fish will be recognized.
10. To replace a record for a fish weighing less than 25 pounds, the replacement must weigh at least 2 ounces more than the existing record. To replace a record for a fish weighing 25 pounds or more, the replacement must weigh at least one-half of 1 percent more than the existing record. Example: at 100 pounds the additional weight required would be 8 ounces. Any catch that exceeds the existing record by less than the amount required to defeat the record will be considered a tie.
11. The Tournament Director reserves the right to disqualify any entry.
12. All entry forms must be filled out completely and in a legible manner by the weighmaster. The signed forms should be mailed in **by the angler**.
13. The tournament runs from January 1 - December 31. No entry forms for the previous tournament year will be accepted after 4:30 p.m. January 31.
14. Only one citation per species of fish will be issued to any individual during the tournament year. In the event an individual catches a larger fish than the one for which he originally was issued a citation, a new citation will be issued for the **larger** fish if the individual returns the older citation.
15. Only one saltwater award and one freshwater award will be issued to any one individual during the tournament year.
16. Special citations will be issued upon approval of the Tournament Director in the case of unusual catches or extenuating circumstances. If the weigh station feels the catch is rare or unusual, an entry form should be submitted for approval. All decisions by the Director on unusual species will be final.
17. Citations will be awarded for released white or blue marlin. Fill out the standard entry form except for length, weight, and girth and include a signature and telephone number of a witness to the catch other than the angler and captain. Any marlin kept for taxidermy also will be eligible for Tournament entry provided a taxidermist receipt is enclosed with the entry form. Marlin retained for any purpose other than mounting will not be eligible for entry in the Tournament.
18. The Tournament Director reserves the right to disqualify any weigh station if the Tournament rules are not observed.
19. Hybrid striped bass will only be recognized for entry when caught in non-tidal water.
20. The State of Delaware assumes no responsibility in the certification of a catch for consideration by the International Game Fish Association or any record keeping body other than the Delaware Sportfishing Tournament. If the angler wishes to qualify his/her catch for consideration in some other tournament, it is the responsibility of the angler to insure that his catch and weigh-in meets the appropriate criteria. The Delaware Sportfishing Tournament makes no distinction based on line classes or sex of the angler or fly versus conventional fishing gear.
21. Call (302) 735-2960 for tournament information.

## LIVE RELEASE AWARDS

In order to promote conservation ethics among Delaware anglers, the Division of Fish and Wildlife is providing recognition patches to anglers who catch and release live eligible species that exceed the minimum lengths specified. To qualify, an angler must make the catch in Delaware waters or off Delaware's Atlantic coast line. The eligible species must be measured from the tip of the jaw to the tip of the tail (straight line measurement with mouth closed) and this measurement must be verified by a witness who signs the entry form. The fish so measured must be released immediately. Fish kept either alive or dead and brought to a weigh station will be weighed for entry in the Sport Fishing Tournament using certified scales and will not be eligible for a Live Release Award. Only those fish released alive immediately shall be eligible for a Live Release Award. Billfish released alive are eligible for either the Live Release Award or the Sport Fishing Tournament Award, whichever one the angler chooses.

No angler will be issued more than one live release freshwater award and one live release saltwater award per year, although he or she may apply for and receive one of the live release citations for each eligible species.

Applications for Live Release Awards are available on-line or may be picked up at any Sport Fishing Tournament Weigh Station and must be mailed to the Division of Fish and Wildlife within 30 days after the catch. The entry form for live releases must include both the angler's signature and the signature of a witness to the actual measurement and live release of the fish. No fish entered for a Live Release Award will be eligible for consideration as a State record fish. All potential State record fish must be weighed at a certified Weigh Station.

J. Jacobini

 1 - Must be 17 inches or longer  
 2 - Must be taken from non-tidal waters

## BE ON THE LOOKOUT

### Have You Seen a Sturgeon Lately?

If you find a dead sturgeon please report it immediately by calling: **302-735-8650**.

Don't forget to include an exact location and contact information in your message.

## MEASURING YOUR CATCH

Place the fish on a measuring board or stick with the tip of the jaw or snout (the mouth closed) at the end of the instrument. Hold the head down with one hand to keep the fish in place, pinch the upper and lower lobes of the tail together while swiping the tail back and forth across the board. Note the measurement of the longest part of the tail\*; that is the "total length." Keep in mind that fish which barely make the minimum length may shrink after being on ice for an hour or more. Sometimes it is possible to get an accurate measurement while the fish is still in the landing net.

**\*When measuring black sea bass do not include the long caudal fin filament in your measurement of total length.**

Maryland DNR

## FISHING DOLLARS

### Where Do Your Fishing License Dollars Go?

- 69%** • Fishing & Boating Access
- 15%** • Fisheries Research & Restoration
- 11%** • Aquatic Education
- 3%** • Technical Assistance
- 2%** • Grant Coordination

Your license and trout stamp purchases allow the Division to secure additional federal Sport Fish Restoration funds used for fisheries research, maintenance and construction of fishing areas, and aquatic education. Please note that anglers exempted from purchasing a license and/or trout stamp to support these activities. The Division is grateful to anglers that contribute to our mission in this way. For more information, please visit us at [www.fw.delaware.gov/fisheries](http://www.fw.delaware.gov/fisheries).

# FISH CONSUMPTION ADVISORIES

Fishing is an important activity in Delaware's inland and coastal waters. Among the benefits provided by fishing are quality recreational opportunities, direct and indirect input to the local economy, food for recreational anglers, and food for the commercial marketplace. Fish are a good source of readily digestible protein. They are low in fat and sodium, and the unique types of fats found in fish are believed to provide cardiovascular benefits.

Despite the general benefits of fishing and fish consumption, there are also health risks associated with consuming some locally caught fish. Certain toxic chemicals such as polychlorinated biphenyls (PCBs) and mercury persist

in the environment and accumulate in fish. When you eat the fish, you also ingest these chemicals. In cases where the health risk is elevated to recreational anglers and their families, the Department of Natural Resources and Environmental Control (DNREC), in cooperation with the Department of Health and Social Services' Division of Public Health (DPH), issue fish consumption advisories to inform the public of the situation. The most recent fish consumption advisories for Delaware waters are shown on the accompanying table. These advisories are intended to protect public health and hence are conservative.

Although the list of waters and fish spe-

cies under advisory is extensive, monitoring shows that contaminant concentrations in the fish are slowly improving over time in many cases. This is the result of steady progress in cleaning up the sources of the contamination along with natural processes. DNREC and DPH will continue to monitor contaminant levels in fish over time and issue new or revised fish consumption advisories as appropriate.

For more information concerning health advisories for Delaware waters, go on-line or contact the Division of Public Health at (302) 744-4546. For more information on balancing health risks and health benefits of consuming seafood, visit <http://seafoodhealthfacts.org>.

## CUTTING THE FAT

Toxic chemicals tend to concentrate in the fatty tissue found in the:

- 1) dorsal area.
- 2) lateral line.
- 3) belly flaps.

When cleaning fish, always skin it and trim away fatty areas shown by the dotted line.

Reprinted with permission of Soundings Publication Inc.

**Notes:**

\* Women of childbearing age and children should not consume any amount of these fish.

For more information on the specific contaminant(s) of concern for each waterbody listed, consult the Division's website ([www.fw.delaware.gov](http://www.fw.delaware.gov)) or contact DNREC at (302) 739-9902, or the Division of Public Health at (302) 744-4546.

**Contaminants of concern:**

**A)** PCBs, **B)** Dioxins and furans, **C)** Mercury, **D)** Chlorinated pesticides, **E)** Dieldrin, **F)** DDT, DDD and DDE, **G)** Chlordane

# FISHING PHOTO CONTEST WINNERS

The Division of Fish and Wildlife held its fourth annual Fishing Photo Contest in 2014. The contest theme was, "Taking Action for Conservation." Entry photos had to be taken in Delaware and depict anglers participating in fishing activities. Division of Fish and Wildlife Director David Saveikis and local photographers Tony Pratt and Freda Barrett, both DNREC employees, served as judges and reviewed the 23 entries received. First place was awarded to Amy Baldwin of Newark. Amy took a photo of Kevin, Ella and Mason surf fishing at the Faithful Steward crossing at Delaware Seashore State Park. Second place was awarded to Angela Garcia of Smyrna. The photograph shows her son Dominic Garcia enjoying a day fishing at the Aquatic Resource Education Center pond at Woodland Beach Wildlife Area.

In addition, three honorable mentions were selected and are presented here:

Ella Baldwin Photo by Amy Baldwin  
 Hannah Zhao Photo by Hong Zhao  
 Christopher Hasley Photo by Jason Gary

## 1st Place

Awarded to Amy Baldwin of Newark for this photograph of Kevin, Ella and Mason surf fishing.

## 2nd Place

Awarded to Angela Garcia of Smyrna for this photograph of her son Dominic fishing at the Division's Aquatic Resource Education Center.

In addition, three honorable mentions were selected and are presented here:
